The Skykit SKP Pro Mobile transforms standard displays into eye-catching digital signage. Pair this powerful Android media player with any HDMI-enabled display to show content across your network with up to a 4K resolution output.

Need to extend or mirror your content? Go beyond a single screen with the SKP Pro Mobile's dual-display feature. Looking to take your digital signage to the next level? Bring you own network with this mobile-ready media player, which supports 4G LTE connectivity for cost-effective and secure at-scale signage networks.

The SKP Pro Mobile includes Skykit Control Core, our enterprise-grade device management solution built for digital signage. Control manages and secures your SKP Pro Mobile devices from deployment to retirement, allowing you to remotely update Skykit apps, enable device lockdown, and monitor the health of your media players – all from the cloud-based Skykit platform.
